

# NEURAL FACTORS AND EATING

Preschool Problem Solving  
Follow-Up Study

The Developmental  
Cognitive Neuroscience  
Lab is conducting a  
follow-up study for  
young adults who  
participated in the  
Preschool Problem  
Solving Study during  
high school.

Participants will  
**EARN \$125** for:

- Attending a 2.5 hour session  
in CB3, attached to Memorial  
Stadium
- Completing questionnaires  
about health and behaviors
- Getting an MRI scan while  
drinking a milkshake!
